Blood Pressure Awareness Card (BPAC)

Print, cut along the dashed lines, and fold the middle dge to make your own card!

Learn with Plagtrick and Echo!

Echo here and today we are all going to become ECHO HEROES!

Echo Heroes know the importance of lifelong heart health, and one super way to keep track of that is to get our blood pressure checked. **Blood pressure** is the amount of force your blood pushes against the walls of your arteries. To know your numbers,we use a **blood pressure monitor**— a device that measures blood pressure. Getting our numbers checked each year can show us if we are at risk of **hypertension**, which is a chronic condition of high blood pressure. Even though some of it may sound scary, Echo Heroes have no need to fear! To help keep blood pressure at healthy levels, you can make heart-healthy choices like exercising regularly, taking time to relax, getting a good night's rest, and eating nutritious foods.
