Learn with Plagtrick and Echo!

Hi there, it's me, Echo! Plagtrick here was just asking me what's on the menu. I wanted to make sure that we feel satisfied and energized after we eat, so I packed lots of nutritious options, incorporating all **5 food groups**.

- 1. **Fruits**: Food that grows from a plant and has seeds.
- 2. **Vegetables**: The parts of plants that we can eat.
- 3. **Protein**: Food packed with nutrients that help our bodies build muscle.
- 4. **Grain**: Dried seeds of grasses that are used for food.
- 5. **Dairy**: Food or drinks that come from the milk of mammals.

I can't wait to try all these yummy foods! Making sure we get proper **nutrients** from each food group helps us stay heart-healthy!

1. Yogurt 2. Apple 3. Bread 4. Fish 5. Carrot

Anagrams

Unscramble the letters. Match the words to food groups.
